N° Catalogue No.: T48-21/1984
ISBN: 0-662-53313-5

Avant-Propos

Ceci est une liste des publications préparées par ou pour le Centre de développement des transports (CDT) et offertes au public. Cette liste de titres, classés selon le mode de transport et l'ordre alphabétique, regroupe tous les rapports du CDT publiés depuis 1971, sauf les rapports confidentiels. Le symbole ‡ identifie les rapports publiés depuis la dernière mise à jour de cette liste (décembre 1982).

Ces publications peuvent être obtenues gratuitement au CDT, jusqu'à épuisement des stocks.

Le symbole ◊ précédant un titre indique que ce rapport est épuisé. On peut obtenir des copies de ces rapports moyennant 20¢ la page en s'adressant au Centre de documentation de Transports Canada, Edifice de Transports Canada, Ottawa, Ontario, K1A 0N5, tél: (613) 992-4529.

Les rapports (◊) préparés depuis 1979 sont disponibles sur microfiches, au prix de 8,00 $ la fiche, chez Micromedia Ltd., 144 Front St. W., Toronto, Ontario, M5J 1G2, tél: (416) 593-5211. Les rapports (◊) préparés entre 1971 et 1978 sont disponibles sur microfiches, au prix de 2,50 $ chacun, au Centre de documentation à Ottawa.

Preface

This is a list of publications prepared by or for the Transportation Development Centre (TDC) and available for distribution to the public. Compiled by mode and arranged alphabetically, the list includes all TDC reports published since 1971, except for confidential publications. The symbol ‡ marks the titles of reports published since the last edition of this list (December 1982).

Paper copies of the publications listed are available from TDC, free of charge, while supplies last.

Titles preceded by the symbol ◊ designate reports that are out-of-print. Paper copies of these reports may be obtained at a charge of 20¢ per page from the Transport Canada Library and Information Centre, Transport Canada Building, Transport Canada K1A 0N5, tel.: (613) 992-4529.

Out-of-print reports dated 1979 and onwards are available on microfiche for $8.00 per fiche from Micromedia Ltd., 144 Front St. W., Toronto, Ontario M5J 1G2, tel.: (416) 593-5211. Out-of-print reports dated 1971 to 1978 are available on microfiche for $2.50 each from the Library and Information Centre in Ottawa.

Table des matières/Table of Contents

Technologie ferroviaire/Railway Technology	1
Technologie de surface/Surface Technology	13
Technologie aérienne/Air Technology	32
Technologie maritime/Marine Technology	38
Transport pour les personnes âgées et les handicapés/ Transportation for the Elderly and Handicapped	47
Général/General	51

Technologie ferroviaire
Railway Technology

A.C. traction motors for locomotives, by H. Dorosh, Brown Boveri Canada Ltd., 1982. TP 3388E

AC motor propulsion systems for multiaxle drives, final report, by University of Toronto, Dept. of Electrical Engineering, 1978. TP 1431

◊ **Acquisition and evaluation of articulated trucks on a large scale in unit train service — phase I**, summary report, by R.P. Rennie, CN Rail, 1983. TP 4232E

Advanced technology on Japanese national railways, by R.G. Maughan, Railway Consulting Services, 1983. TP 4568E

◊ **Advanced train control project for Canadian railways — phase 1: study of advanced train control technologies**, final report, by T.E. Munford, 1981. TP 3243

‡ **Air clearances for 50 kV 60 Hz railway operations**, final report, by Peter J. Lambeth, Nguyen Duc Hai, Institut de recherche d'Hydro-Québec, 1984. TP 5000E

◊ **Alleviation of detrimental frost heave with salt additives**, annual report no. 1, by R.N. Yong and D.E. Sheeran, McGill University, Geotechnical Research Centre, 1973.

◊ **Alleviation of detrimental frost heave with salt additives**, annual reports no. 2 and 3, 2 volumes, by R.N. Yong and D.E. Sheeran, McGill University, Geotechnical Research Centre, 1975.

◊ **Alleviation of detrimental frost heaving of soils by chemical treatment**, final report, by R.N. Yong and D.E. Sheeran, McGill University, Geotechnical Research Centre, 1978. TP 1408

◊ **Analyse dynamique d'un petit bogie léger**, par Marc Girardin, Bombardier Limitée, 1979. TP 2113

Analysis of rail track structures (ARTS), user's manual, by G.P. Raymond and D.J. Turcke, Queen's University, Canadian Institute of Guided Ground Transport, 1978. TP 1322

Analysis of rail track structures (ARTS), user's manual, second edition, by G.P. Raymond, D.J. Turcke and D.W. Siu, Queen's University, Canadian Institute of Guided Ground Transport, 1980. TP 2603

Application of radio-linked signaling to the Montreal-Quebec City rail passenger route, by J.R. Taylor, F.G.R. Warren and R.J. Pomeroy, Canadian Pacific Consulting Services Ltd., 1981. TP 3019E

Application of wayside energy storage system concepts to Canadian railways, by L.M. Cook and L.J. Lawson, Garrett Manufacturing Ltd., 1980. TP 2463

Approvisionnement en carburant pour locomotives diesel, rapport sommaire, par M.J. Lovett, Hycarb Engineering Ltd., 1980. TP 2767

◊ **Arctic oil and gas by rail**, 6 volumes, by Canalog Logistics Limited, 1974.

‡ **Augmented rail freight transportation research and development program, year-end report (1982/83)**, Transportation Development Centre, 1983. TP 3756E

◊ **Automatic control of freight trains**, by M.E. Ahmed and M.M. Bayoumi, Canadian Institute of Guided Ground Transport, 1983. TP 4476E

Automobile accompanied rail travel to western Canada, the market potential, by T. Smith and B. Myers, TDC, 1980. TP 2591

‡ **Axle angle of attack comparison: frame-braced vs conventional freight truck**, final report, by J.W. Horwat and T. Warhurst, Urban Transportation Development Corporation, 1983. TP 4869E

◊ **Ballast selection and grading**, summary report, by G.P. Raymond, C.J. Boon and R.W. Lake, Queen's University, Canadian Institute of Guided Ground Transport, 1979. TP 2057

◊ **The Barrie-Toronto trial commuter rail service**, by R.P. Triffo, TDA, 1973.

‡ **BC Rail RDC prototype evaluation**, by C.V. Pedersen and M.J.C. Leeper, H.A. Simons (International) Ltd., 1984. TP 5345E

Bending tests on wood, steel and worn rail catenary masts, by L.C. Tait et al., Canadian Pacific Consulting Services Ltd., 1983. TP 4329E

‡ **British Columbia Railway Tumbler Ridge branch line electrification power supply system design**, final report, by G.B. Furst and B. Biller, Canadian Pacific Consulting Services Ltd., 1983. TP 4899E

Broken rail detection: an overview of techniques and their effectiveness, by Richard J. Pomeroy, Glenayre Electronics Ltd., 1979. TP 2137

◊ **Budd rail diesel car modernization study**, 7 volumes, 1977. TP 844:

- vol. 1: Summary report, by Canadian Pacific Consulting Services Ltd.
- vol. 2: Propulsion system comparisons, by Canadian Pacific Consulting Services Ltd.
- vol. 3: General car improvements, by Canadian Pacific Consulting Services Ltd.
- vol. 4: Garrett gas turbine propulsion system retrofit, by Garrett Manufacturing Ltd.
- vol. 5: Pratt & Whitney Aircraft of Canada gas turbine propulsion system retrofit, by Pratt & Whitney Aircraft of Canada Ltd.
- vol. 6: Car structural changes and propulsion system installation, by Bombardier-MLW Ltd.
- vol. 7: Car body improvements and interior modernization, by Bombardier-MLW Ltd., 1977.

Canadian diesel locomotive fuel in the eighties, by R.G. Maughan, Railway Association of Canada, 1981. TP 3140

A Canadian dynamic controlled-climate test facility: feasibility study, final report, by J.D. Jackson and V. Uzumeri, DSMA International Inc., 1983. TP 3976

A Canadian dynamic controlled-climate test facility: feasibility study, summary report, by J.D. Jackson and V. Uzumeri, DSMA International Inc., 1983. TP 3977

Canadian guided ground transport test centre study, final report, by Acres Consulting Services, 1978. TP 1734

Canadian railway electrification standards: a discussion paper, by R.G. Black and P.D. Frazier, Queen's University, Canadian Institute of Guided Ground Transport, 1982. TP 4206E

◊ **Canadian railway electrification study — phase I, Overview**, by E.R. Corneil, C.E. Law and R.W. Lake, Canadian Institute of Guided Ground Transport, 1976.

◊ **Canadian railway electrification study — phase I**, 2 volumes, by E.R. Corneil, C.E. Law and R.W. Lake, Canadian Institute of Guided Ground Transport, 1976. TP 957

Canadian railway electrification study — phase I: summarization of comments, by Maughan Railway Consulting Services Inc., 1979. TP 1978

‡ **Canadian track/train dynamics research program — 1973 to 1983: a 10 year review**, by R.G. Maughan, Maughan Railway Consulting Services Inc., 1984. TP 5487E

Characteristics of the CN 60A concrete cross tie, by J.F. Scott, CN Rail, 1980. TP 2647

‡ **CN all-weather mainline track switch — conceptual design**, final report, by A. Van Eyken, Canadian Institute of Guided Ground Transport, 1983. TP 4425E

Comparative evaluation of Transport Canada rail seat: preliminary passenger response, working paper, by Trevor Smith, D. McGrath and J. Smart, 1978. TP 1517

Comparison of Wyle and CP angle-of-attack data, by H. Ghonem, CP Ltd., 1981. TP 3032

◊ **Computer aided train dispatch system definition**, by Canadian Pacific Consulting Services Ltd. and MPB Technologies Inc., 1978. TP 1629

Concept definition of wayside energy storage systems (WESS) for railway electrification, final report, by A.B. Turner, F.W. Eyre and D. Murphy, SNC Inc., 1982. TP 3622E

Concept definition of wayside energy storage systems (WESS) for railway electrification, summary report, by A.B. Turner, F.W. Eyre and D. Murphy, SNC Inc., 1982. TP 3610E

Concept of a profilometer for rail wear determination, by G. Izbinsky and G. Warshaw, CP Ltd., 1981. TP 3503

‡ **Conception of wheel/rail system test rigs**, final report, by P. Marcotte, DSL Dynamic Sciences Ltd., 1983. TP 4953E

Concepts for a system to warn trains of a stalled motor vehicle obstructing the tracks, by James R. Taylor and Jorge M. Rebelo, Canadian Pacific Consulting Services Ltd., 1980. TP 2813

◊ **Conditions hivernales et sécurité des trains de grande vitesse de la ligne Montréal-Québec**, par F.L. Peckover, 1977. TP 1416F

CRC pusher operations: train simulations study, final report, by L.C. Tait and W.R.H. Richardson, Canadian Pacific Consulting Services Ltd., 1982. TP 3920E

Curving performance analysis of four freight car trucks, by R. Young and P.P. Marcotte, Dynamic Sciences Ltd., 1981. TP 3211

Curving performance of GM SD-40, SD-40-2 and MLW 636 locomotive trucks, by W. Pak, R. Gonsalves and G. Izbinsky, Canadian Pacific Ltd., 1982. TP 3776E

Curving performance of SD-40 locomotive trucks, by W. Pak, CP Ltd., 1981. TP 3050

Definition and evaluation of a mobile gas dispersion system, by DSMA ATCON Ltd., 1980. TP 2606

Définition du concept de systèmes de stockage d'énergie en bordure des voies (SSE) pour l'électrification ferroviaire, rapport sommaire, par A.B. Turner, F.W. Eyre et D. Murphy, SNC Inc., 1982. TP 3610F

‡ **Design of a single cylinder medium speed research engine and test facility**, final report, by M.L. Payne, Bombardier Inc., 1983. TP 4844E

Determination of stress-free temperatures and force levels in continuous welded rail (CWR), by J.F. Scott and C.J. Dalton, CN Rail Research Centre, 1982. TP 3707E

◊ **Development of a design for a computer model to study derailment in railway grade crossing collisions**, final report, by D.B. Cherchas, ENDEV Limited, 1976. TP 1077

Development of a digital computer program for grade crossing collision analysis, by D.B. Cherchas et al., Queen's University, Canadian Institute of Guided Ground Transport, 1979. TP 2496

◊ **Development of an AC motor propulsion system for rail applications**, by S.A. Rosenberg et al., TDA, 1976. TP 232

Diesel electric locomotive noise study, by D. Satsangi, Bombardier Inc., 1981. TP 2986

◊ **Dynamic measurement of a heavy car wheelset over rails subject to corrugation**, by F.B. Blader, 1978. TP 1394

◊ **Effect of winter conditions on the safety of high speed trains on the Montreal-Quebec line**, by F.L. Peckover, 1977. TP 1416

Effects of "streaks" on the fracture toughness of chromium-molybdenum rail steel, by CP Rail Ltd., 1980. TP 2720

◊ **Effects of CP Rail YARDS car control on rail car handling times at the Vancouver terminal**, by Quasar Systems Ltd., 1979. TP 2197

Elasto-cushion truck performance study, by R. Gonsalves, W. Pak and G. Izbinsky, Canadian Pacific Ltd., 1982. TP 3823E

Electrification des chemins de fer canadiens réseaux de distribution, rapport sommaire, par G.W. English, E.R. Corneil et G.T. Fisher, Queen's University, Canadian Institute of Guided Ground Transport, 1982. TP 3665F

◊ **Electrification study for British Columbia Railway Tumbler Ridge branch line**, by M. Sugimoto and D.R. Stirling, Canadian Pacific Consulting Services Ltd., 1982. TP 3619E

◊ **The electroslag welding of rail steels**, by Queen's University, Canadian Institute of Guided Ground Transport, 1980. TP 2598

Engineering study for an electrification demonstration project with the Cartier Railway Company, final report, by L.C. Tait, J.R. Taylor and D.F. Haney, Canadian Pacific Consulting Services Ltd., 1982. TP 3525E

Engineering study for an electrification demonstration project with the Cartier Railway Company, summary report, by L.C. Tait, J.R. Taylor and D.F. Haney, Canadian Pacific Consulting Services Ltd., 1982. TP 3611E

Equipement ferroviaire de déneigement — phase 1, par G.J. Ewenson et R.C. Field, Association des chemins de fer du Canada, 1979. TP 2180F

Establishment of quantitative wear and fatigue model for railway rail, 1981-82 progress report, by J. Kalousek, National Research Council, and H. Ghonem, University of Rhode Island, 1983. TP 4347E

‡ **Establishment of quantitative wear and fatigue model for railway rail subjected to heavy traffic conditions and different lubrication regimes**, progress report, October 1982 — September 1983, by Dr. J. Kalousek, National Research Council, 1984. TP 5346E

◊ **Étude de compteurs de vitesse pour locomotives**. *Investigation of speedometers for rail locomotives*, rapport sommaire / summary report, par / by L. Garland and D. Ahrens, T.E.S. Ltd., 1980. TP 2519

Étude de marché concernant un service de trains auto-couchettes vers l'ouest canadien, par T. Smith et B. Myers, CDT, 1980. TP 2591F

Etude technique relative au projet pilote d'électrification d'un tronçon de voie ferrée appartenant à la compagnie de Chemin de fer Cartier, rapport sommaire, par L.C. Tait, J.R. Taylor et D.F. Haney, Société d'études et de consultation du Canadien Pacifique, 1982. TP 3611F

Evaluation criteria and detailed planning for a two-axle steerable locomotive truck, by P.G. Whitby, Bombardier Inc., 1982. TP 3851E

◊ **Evaluation of "Modelling the response of an LPG-carrying rail tank car to an extern al fire environment", by Davis Engineering**, by J.E.S. Venart, University of New Brunswick, 1982. TP 4323E

Evaluation of "Tank car thermal modelling — phase I", by H.G. Engineering, by J.E.S. Venart, University of New Brunswick, 1982. TP 4322E

◊ **Evaluation of Algoma Cr-Mo rail steel for Canadian Pacific Limited, interim experimental results**, by Algoma Steel Corporation, 1976. TP 2389

‡ **Evaluation of design alternatives for a freight train controller**, 6 volumes, by K.Y. Wong, M.M. Bayoumi, M.E. Ahmed et al., Canadian Institute of Guided Ground Transport, 1983. TP 5114E

Evaluation of equipment testing experience, final report, by A. Hugh Paton, Bombardier-MLW Ltd., 1977. TP 1127

Evaluation of premium rail on 8° curves on the B.C. South Line, by P. Gardiner et al., CN Rail Research Centre, 1979. TP 2567

An evaluation of the benefits of precast concrete components for road/rail grade separation compared to cast in place construction, working paper, by A. Hugh Paton, 1979. TP 2396

◊ **Evaluation vibration tests of railway passenger seats**, by C.L. Jordan, DND Quality Engineering Test Establishment, 1978. TP 2339

‡ **Experimental "A" and "AAR" wheel profile measurements on a CP unit coal train**, final report, by V. Khatchadourian, Canadian Pacific Ltd., 1983. TP 5081E

◊ **Experimental and AAR wheel profile measurements on a CP unit coal train**, by G. Izbinsky and W. Pak, CP Ltd., 1980. TP 2728

‡ **Explosafe installation design**, final report, by A.J. Bosik, Davis Engineering Ltd., and D.W. Patterson, Whiteshell Nuclear Research Establishment, 1983. TP 4398E

◊ **The feasibility of eddy current track brakes for application to Canadian 125 mph (200 km/h) trains**, working paper, by A. Hugh Paton, 1977. TP 1130

◊ **Feasibility of special structural designs of locomotives and railcars to improve safety at level crossings**, by Dilworth, Secord, Meagher and Associates Ltd., 1978. TP 1053

◊ **Feasibility study for Vancouver terminal area railcar information system**, interim report, by H.A. Simons (International) Ltd., 1978. TP 1337

‡ **Feasibility study of energy absorbing tank car shells**, final report, by M.N. Bassim and D. Shum, University of Manitoba, 1983. TP 4369E

Field testing of inductive connectors, by G.J.M. Aitken, Queen's University, Canadian Institute of Guided Ground Transport, 1982. TP 3628

◊ **A forecasting method developed for assessing the rail passenger market in the Quebec-Windsor corridor**, working paper, by Brian Marshall, TDC, 1978. TP 1487

◊ **Freight car truck evaluation tests**, report LTR-IN-395, by R. Dukkipati and W. Watson, National Research Council, 1978.

Fuel supply for diesel locomotives, by M.J. Lovett, Hycarb Engineering Ltd., 1980. TP 2709

Fuel supply for diesel locomotives, summary report, by M.J. Lovett, Hycarb Engineering Ltd., 1980. TP 2767

‡ **Fuels for railway and marine diesels**, final report, by T.H. Wise, G.R. Crandall and J.N. Zanyk, Hycarb Engineering Ltd., 1983. TP 5099E

‡ **Fuels for railway and marine diesels**, summary report, by T.H. Wise, G.R. Crandall and J.N. Zanyk, Hycarb Engineering Ltd., 1983. TP 5100E

Geotechnical analysis of two geotextile sites, by G.P. Raymond and B.S. Gerry, Queen's University, Canadian Institute of Guided Ground Transport, 1982. TP 3990

Geotextiles in railway track rehabilitation applications, final report, by Gerald P. Raymond, William J. Purdy and Brian S. Gerry, Queen's University, Canadian Institute of Guided Ground Transport, 1982. TP 3647E

Granulométrie et méthode de sélection du ballast, rapport sommaire, par G.P. Raymond, C.J. Boon and R.W. Lake, Université Queen's, Canadian Institute of Guided Ground Transport, 1979. TP 2057F

◊ **Guided ground transport research problems — part 1: conventional rail concepts**, by Queen's University, Canadian Institute of Guided Ground Transport, 1981. TP 3451

High speed filming of wheel/rail interaction, by J. Kalousek and R. Gonsalves, Canadian Pacific Ltd., 1978. TP 1474

◊ **High speed rail passenger demonstration project: considerations regarding track for the initial 125 mph operation**, by Maughan Railway Consulting Services Inc., 1979. TP 1977

High speed rail passenger demonstration project: discussion of track requirements, by Maughan Railway Consulting Services Inc., 1979. TP 1976

◊ **High speed trains in France: Paris-sud-est**, by Joseph Jones, Queen's University, Canadian Institute of Guided Ground Transport, 1981. TP 3524

Impact loading measurements on CN 60A concrete ties, by J.F. Scott, CN Rail, 1980. TP 2649

◊ **Inductive coupling for transmission of braking signals in long freight trains**, by G.J.M. Aitken, Queen's University, Canadian Institute of Guided Ground Transport, 1977. TP 848

Inductively-coupled connectors for signalling and brake control on long freight trains, by G.J.M. Aitken, Queen's University, Canadian Institute of Guided Ground Transport, 1979. TP 1966

Les installations d'essai à climat contrôlé vues par l'industrie ferroviaire, par Canalog Logistics Ltée, 1980. TP 2691F

An interim report for the design of ballast thickness under adverse conditions, by D.E. Sheeran and R. Jayraman, McGill University, Geotechnical Research Centre, 1981. TP 3766E

◊ **An investigation of speedometers for rail locomotives**/*Etude de compteurs de vitesse pour locomotives*, summary report/rapport sommaire, by/par L. Garand and D. Ahrens, T E S Ltd., 1980. TP 2519

An investigation of speedometers for rail locomotives, final report, by L. Garland and D. Ahrens, T E S Ltd., 1980. TP 2518

◊ **An investigation of the recline mechanism of the Transport Canada commissioned rail passenger seat**, by T E S Ltd., 1978. TP 2336

Laboratory research, analyses and testing of improved austenitic manganese steels for railway applications, by Dr. W.B.F. Mackay and Dr. R.W. Smith, Queen's University, Canadian Institute of Guided Ground Transport, 1983. TP 4366E

◊ **Location, identification and control system reliability analysis: failure modes and effects analysis**, by W. Lee and D. Honkanen, Transport Canada, Telecommunications and Electronics Branch, 1979. TP 2063

‡ **Location, identification, and control system: application to mainline railroads**, final report, by R.C. Chillman and R.J. Pomeroy, Glenayre Electronics Ltd., 1983. TP 5032E

Locomotive cab information display, by R.J. Pomeroy and R. Wortman, Glenayre Electronics Ltd., 1981. TP 3630E

◊ **Locomotive steerable axle truck study**, final report, by J.E. Chatfield and D.E. Close, Canadair Ltd., 1979. TP 1992

Locomotive truck improvement study — phase II, steerable axles and resilient motor suspension, by Canadair Ltd., 1980. TP 2661

◊ **LRC**, by M.N. Wadhwani, MLW Industries, Dominion Foundries and Steel Ltd., and Alcan Canada Products Ltd., 1976:

stage I: Report on the testing and evaluation of LRC equipment operating under existing mainline limits. TP 841

stage II: Test report on performance of the prototype LRC locomotive and coach at the U.S. DOT/FRA High Speed Ground Test Centre, Pueblo, Colorado. TP 842

stage III: Report on evaluation of the LRC equipment in daily revenue operation in CNR Tempo service. TP 843

◊ **LRC: the comfort side**, by MLW Industries, 1976. TP 840

◊ **LRC: a summary report on project development and current status of LRC passenger train**, by MLW Industries, Alcan Canada Products Ltd. and Dominion Foundries and Steel Ltd., 1976. TP 838

◊ **LRC: mainline running of the LRC under winter conditions from Avondale, Colorado, to Hamilton, Ontario, and truck inspection at Dominion Foundries and Steel Ltd., Hamilton, Ontario**, by MLW Industries, 1976. TP 839

Manual for three-dimensional sub-surface contact stress analysis program for wheel/rail interaction, by W. Pak, Canadian Pacific Ltd., 1980. TP 2792

Measurement of concrete tie center bending deflections, Albreda and Rivers subdivisions — September 1980, by A. Charenko and J.F. Scott, CN Rail Research Centre, 1981. TP 3346

Measurement of concrete tie centre bending deflections - Kingston, Albreda & Rivers subdivisions, May 1978, progress report, by J.F. Scott and A. Charenko, CN Rail Research Centre, 1978. TP 2628

Measurement of concrete tie centre bending deflections — Kingston, Albreda & Rivers Subdivisions, July 1979, by A. Charenko and J.F. Scott, CN Rail Research Centre, 1979. TP 2583

Methodology for analyzing the effects of CP Rail YARDS car control on rail car handling times, by Quasar Systems Ltd., 1979. TP 2198

Mise au point d'un siège pour train de voyageurs, rapport sommaire, par T.K. Gillies, 1980. TP 2490F

Modelling the response of an LPG-carrying rail tank car to an external fire environment/*Reproduction du comportement d'un wagon-citerne de gaz de pétrole liquide exposé à un incendie*, summary report/rapport sommaire, by/par T. Currie and/et D.A.J. Millar, Davis Engineering Ltd., 1982. TP 4198

Modification of overhead structures for railway electrification, by R.G. Maughan and P.D. Frazier, Queen's University, Canadian Institute of Guided Ground Transport, 1983. TP 4450E

◊ **Montreal yard computerized inventory system: application of a mini computer, cathode ray tubes and automatic car identification to maintain freight car inventory in a major railway terminal**, by Canadian National Railways, 1974.

◊ **Montreal yard perimeter automatic car identification system: supplement**, by Canadian National Railways, 1974.

◊ **National transportation policy study: a survey of rail passenger transportation**, by Queen's University, Canadian Institute of Guided Ground Transport, 1975.

On the performance of the experimental bainitic chromium - molybdenum rail steel, by H. Ghonem, Canadian Pacific Ltd., 1982. TP 3726E

‡ **Operational evaluation of train tracking and dispatcher assist functions — LIC Location, Identification and Control**, final report, by J.L. Voice, R.S. Dixon, E.D. Surbey et al., British Columbia Railway, 1983. TP 4451E

Performance and safety standards for rail passenger seat/*Résistance et sécurité des fauteuils de trains*, by/par TDC/CDT, 1979. TP 1598

◊ **Performance of frost heave modifying chemical additives at the CN Dorval test site**, by D.E. Sheeran and R.N. Yong, McGill University, Geotechnical Research Centre, 1978. TP 1814

◊ **Planning of a research programme for the air brake system for freight trains**, by R.M.H. Cheng, Concordia University, Fluid Control Centre, 1980. TP 2462

Power distribution alternatives in Canadian railway electrification, final report, by G.W. English, E.R. Corneil and G.T. Fisher, Queen's University, Canadian Institute of Guided Ground Transport, 1982. TP 3526E

Power distribution alternatives in Canadian railway electrification, summary report, by G.W. English, E.R. Corneil and G.T. Fisher, Queen's University, Canadian Institute of Guided Ground Transport, 1982. TP 3665E

Praticabilité technique et économique d'un système de trains autos-couchettes au Canada/*Technical and economic feasibility of a Canadian auto train*, par/by J.M. Rebelo, Société d'études et de consultation du Canadien Pacifique/Canadian Pacific Consulting Services Ltd., 1981. TP 3119

Pre-test of rail seat evaluation questionnaire, working paper, by Trevor Smith, TDC, 1978. TP 1499

Precast prestressed concrete for railway/highway grade separation structures, by R.G. Maughan, Maughan Railway Consulting Services Inc., 1982. TP 3397

Predicting requirements for subballast thickness, progress report no. 1, by C.J. Dalton and J.F. Scott, CN Rail Research Centre, 1979. TP 2584

◊ **Predicting requirements for subballast thickness**, progress report no. 2, by C.J. Dalton and J.F. Scott, CN Rail Research Centre, 1981. TP 2987

◊ **Prediction of long term track subgrade settlement due to cyclic wheel loading**, by D.E. Sheeran, H.M. Elmamlouk and E.A. Fattah, CN Rail, 1980. TP 2648
